FiOS Internet – Light Years Beyond Cable

Nothing travels faster than light.

The FiOS fiber optic cable fires pulses of light through wires made of pure glass – only slightly larger than the width of a human hair – to deliver unimaginable speeds. Experience the fastest internet in the United States with download speeds up to 300 times faster than DSL.

What does it really mean to engage download speeds of up to 24 Mbps?

- That's two hundred photos in 8 seconds.
- That's three whole songs in 5 seconds.
- That's Beethoven's entire 5th Symphony in a fraction of a second.

That's fiber optic fast.

FiOS TV – The Highest of High Definition

Experience the future of high definition television. HDTV across our 100% fiber optic network is more vivid, more captivating than any other HD experience available.

Rated #1 in HD picture quality, FiOS delivers 130 HD channels in vibrant colors and startling fidelity. Access more than 25,000 On Demand movies and TV shows whenever you want, wherever you want, on the most advance network in the nation.
