

## Axsen Marketing & Design

[Axsen](#) creates websites for attorneys and other professionals, and they hired me to write copy for lawyers who specialize in family law, tax law, real estate, and criminal law—see the two most interesting samples below.

---

### **Family Law**

Family law attorneys are called upon to guide us through some of the most emotionally demanding experiences of our lives. Whether planning a marriage, struggling with a divorce, demanding child support, or fighting for custody, you need an experienced attorney who can navigate the complex and ever changing terrain of the California legal system.

You need someone who will fight for you, but it doesn't stop there—you need an attorney who understands your family's emotional needs and sees the larger picture.

We understand this delicate balance. We are skilled at protecting your interests and those of your children without inflaming the situation.

#### **We can also help with...**

Prenuptial agreements, arrangements related to common law marriage, cohabitation and domestic partnership, foster parenting, adoption, and all other areas where your family's needs intersect with the law.

### **Criminal Law**

When you've been charged with a crime, you're not only fighting for your reputation—in many cases, you're fighting for your livelihood and your freedom.

Entrusting your life to an overworked public defender could have disastrous consequences. You need a competent, trustworthy attorney who can cut through the red tape, explain your best options, and fight for you every step of the way.

Was your initial arrest handled properly? Were your rights respected? We'll make sure of it.

We will guide you through booking and bail, arraignment, preliminary hearings, possible plea bargaining or trial, and we will explain the sentencing and appeals process so you know exactly what you're up against.

Nobody can promise you that the road ahead will be easy, but we'll give your future a fighting chance!
